September 5, 2022

Compiled on September 5, 2022 at 11:53pm

These are the final regression reports for some CAS systems running the Computer Algebra Independent Integration Tests for summer 2022 build.

These reports show the integrals that failed in summer 2022 build (current) but were solved in the last year's summer 2021 build.

1. Fricas 1-210 files completed.
2. Xcas/Giac 1-210 files completed.
3. Maxima 1-210 files completed.
4. Mathematica 1-210 files completed.
5. Sympy 1-210 files completed.
6. Maple 1-210 files completed.
